ONLINE

As a winner you are also able to use the HAIR Awards 2019 Winner's stamp on your website and communications, there's just a few little terms and conditions to bear in mind:

- Our logo can be used in any of your marketing communications, not on the physical product. For this you will need to purchase special stickers.
- We would ask that you use the logo in its original format (not re-sized or altered).
- When the winner is a product, the logo is to be used to promote that winning product and not other products in the range.

Thanks for your co-operation on this.
